# CRISP

Coral Reef InitiativeS for the Pacific  
Initiatives Corail pour le Pacifique

The CRISP Coordinating Unit (CCU) was integrated into the Secretariat of the Pacific Community in April to insure maximum coordination and synergy in work relating to coral reef management in the region.

The Initiative for the Protection and Management of Coral Reefs in the Pacific (CRISP), sponsored by France and prepared by the French Development Agency (AFD) as part of an inter-ministerial project from 2002 onwards, aims to develop

a vision for the future of these unique ecosystems and the communities that depend on them and to introduce strategies and projects to conserve their biodiversity, while developing the economic and environmental services that they provide both locally and globally. Also, it is designed as a factor for integration between developed countries (Australia, New Zealand, Japan and USA), French overseas territories and Pacific Island developing countries.

## Component 1A: Integrated Coastal Management and Watershed Management

- 1A1: Marine biodiversity conservation planning
- 1A2: Marine Protected Areas
- 1A3: Institutional strengthening and networking
- 1A4: Integrated coastal reef zone and watershed management

## Component 2: Development of Coral Ecosystems

- 2A: Knowledge, beneficial use and management of coral ecosystems
- 2B: Reef rehabilitation
- 2C: Development of active marine substances
- 2D: Development of regional data base (ReefBase Pacific)

## Component 3: Programme Coordination and Development

- 3A: Capitalisation, value-adding and extension of CRISP activities
- 3B: Coordination, promotion and development of CRISP Programme
- 3C: Support to alternative livelihoods
- 3D: Vulnerability of ecosystems and species
- 3E: Economic task force

CRISP Coordinating Unit (CCU)  
Programme Manager: **Eric CLUA**  
SPC - PO BOX D5  
98848 Noumea Cedex  
New Caledonia

E-mail: [ericc@spc.int](mailto:ericc@spc.int)  
[www.crisponline.net](http://www.crisponline.net)

The CRISP programme is implemented as part of the policy developed by the Secretariat of the Pacific Regional Environment Programme for a contribution to conservation and sustainable development of coral reefs in the Pacific.

## COMPONENT 1 - PROJET 1A2 Support to Marine Protected Areas

The objective of this project is to reinforce existing MPAs and to create new ones in order to create a wide panel of pilot sites and experiences that will be used as reference or model for the integrated management of marine resources in the Pacific.

Several sites have been identified and the subsequent actions have been planned : support to Aleipata and Safata Marine Protected Areas in Samoa ; support to operational MPAs in the Solomon Islands and Vanuatu (FSPI) ; identification of new sites in Tuvalu and Kiribati ; identification and implication of local stakeholders in the Mont Panié area (Northern New Caledonia) ; support to GERSA project on coastal and watersheds management in Vanuatu, Fiji and French Polynesia ; pilot studies for the implementation of Marine Areas Management Plan (PGEM) according to the methods developed in French Polynesia.

This CRISP project was financed by:

*Takara Kaonsel of  
Chiefs, North Efate*

*Wan Smolbag  
Theatre*

**DECLARATION BLONG TAKARA KOMUNITY ADAPTIVE MANAGEMENT PLAN**

Mi Chief Albert Tarma mi stap sign andanit ia blong talem sei management plan ia hemi go through long process blong consultation wettem everi member blong komunity mo Vanuatu Fisheries Department, Wan Smolbag Theatre mo FSP Vanuatu mo hemi reflectem tinktink blong everi community member blong Takara community.`

Mi declarem se management plan ia hemi nao officially launched mo hemi kam wan document blong helpem managem mo developem blong olketa risoses blong Takara komunity.

Document ia hemi sign long \_\_\_\_\_ day blong Manis \_\_\_\_\_ Yia 2008

\_\_\_\_\_  
Chief Albert Tarmar  
Chief blong Takara Community

\_\_\_\_\_  
Witness: Mr. Graham Nimoh  
Vanuatu Fisheries Department

## FAS TOKTOK

Takara community I kat wan population blong around 300+ pipol wei oli settle long two villages; Takara A mo Takara B. Wettem inkris long namba blong populesen every yia mo economic challenges, community I stap fecem bigfala jalens long mek sure se olketa membas oli kat wan livelihood. Wettem bigfala pressure wei community I putum long olketa risoses blong olketa, yumi luk se ikat ova-harvest long olketa risoses blong solwora olsem fish mo shellfish mo olketa risos long bus olsem Namariu. Andap long hemia, yumi luk I kat moa land dispute I stap kam andap I mekem se hemi kam moa challenging blong managem gud olketa smol risoses wei komunity I kat.

Follem olketa issues ia, Takara Community start wok wettem FSP Vanuatu mo Wan Smolbag Theatre wettem Vanuatu Fisheries Department blong settem up Takara Marine Protected Area mo developem wan community based management plan. Komunity I developem management plan ia blong guidem olketa membas blong save managem gud risoses blong olketa mo sem time wettem launching blong Takara Marine Protected Area, bambae komunity I play wan important role blong conservem olketa marine risoses long Vanuatu mo blong mek sure se risoses blong solwora olsem wan important source blong livelihood hemi stap save oltaem.

Takara community I wantem talem bigfala tankiu long olketa stakeholders ia long bigfala support blong olketa; Vanuatu Fisheries Department, FSP Vanuatu, Wan Smolbag Theatre, FSP- International, Coral Reef Initiative of the South Pacific (CRISP), South Pacific Regional Environment Program (SPREP), Agence Francais de Development (AFD), Institute of Development Research (IRD)-Noumea mo MacArthur Foundation (USA).
